Subject: Re: Bristol Bay Spatial Data

Hi Phil:

Initially, I will be working on this w/ our new team member - James Lopez-Baird. Once we get a better sense of where this is going we will assess our involvement to make sure the right people are involved.. He is only available on M, W, and F, but I am available on fewer hours those days than him. I would suggest using my calendar to check my availability on a M, W, or F and setting up something then.

let me know if that doesn't work for you.

Subject: Bristol Bay Spatial Data

Hi Scott,
This past summer Michael submitted a request for help on our Bristol Bay efforts from your shop. The request is open ended as this project will last for at least the next couple of years. A couple of weeks ago I sent a description of data The Nature Conservancy is willing to share will us. I would like to set up a call with someone from your shop, the TNC folks, Michael and I to discuss their data and how we might acquire it. Can you identify a time in the next couple of weeks that would work? Please let me know if there is something more we need to do in terms of paperwork to engage the GIS folks in this effort.

Phil
